

What is Iyashi?

Iyashi is a Japanese word which means to heal & balance the body, mind and spirit. The Iyashi Bracelet is designed as full spectrum scalar energy tool to clear your energetic field bringing your body, mind and spirit back into a balanced healthy state. The Japanese discovered many thousands of years ago the art of making life-giving ceramics from semi-precious minerals.

Iyashi Bracelet ***Scalar Energy Bracelet***

Basic User Guide and FAQ

Balance of Mind Body and Spirit

How to Use

You can wear the Iyashi Bracelet on either wrist or one on each wrist. The Iyashi Bracelet can be worn on your wrist or up your forearm wherever you find it most comfortable.

Iyashi Bracelets are infused with our proprietary Biometric Frequency Infusion Technology (BFIT). The scalar energy not only clears and heals your energetic field but also makes you more resilient to EMFs. Some people notice differences right away, for others it can be subtle or take awhile to notice the effects.

Everyone is different but regardless of what you feel, the bracelet is always clearing and healing your energetic scalar energy field and protecting you from EMFs.

FAQ

- Iyashi Bracelets can be worn with all other types of energy products including scalar energy and EMF protection products, the Iyashi bracelet works synergistically with all our other products.
- It will not interfere with any electronic devices.
- The Iyashi Bracelet **does not** need to be grounded.
- It is ok to wear the Iyashi Bracelet and get it wet.
- Avoid overstretching the bracelet. If it does break you can easily restring it.

Resizing or Restringing Bracelet

You can change the size of your bracelet by removing or adding links or repair it if the string breaks by using elastic string/cord. We recommend using "Stretch Magic 1mm beading cord" which can be found at craft stores (Michaels etc.) or purchased on Amazon.

To re-string your bracelet:

- String one side of the beads with the elastic cord leaving about 2 inches on both ends.
- Tie the two loose ends together making a triple knot. Make sure the knot is tight and won't become looser but don't pull too hard to break the cord. Cut off the remaining cord on either end of the knot.
- Repeat this with the other side and then slide one of the beads over the knots to hide them.
